Melissa,

I have uploaded all of the information for Bear Canyon from the pipeline into the permanent database. A report is attached.

It seems like you have now included all required samples and parameters for the second quarter of 2006. This will be verified by the assigned hydrologist, you may want to verify for yourself first to avoid having delinquent data. If you do not know how to check the data in the database, please let me know and I can send you instructions.

Please let me know if you have any questions.

Thank you,

Dana Dean, P.E.

the remaining sites are in the pipeline ready to upload. they are  
MW-114, MW-117, SDH-2, & SDH-3, sites MW-114, SDH-2, & SDH-3 were  
reported wrong the first time the new ones in the pipeline are correct.
